

ABSTRACT

A printing device is provided, such printing device including a controller configured to determine whether a position of the printing device is within a first physical environment, and upon such determination, to adjust to a mode of operation useful in interacting with a source device associated with the first physical environment. The printing device may further include a communication interface configured to establish a communication link between the printing device and the source device, and to interact with the source device via the communication link utilizing the adjusted mode of operation.
